Hi Shannon,

Please give me a call.

Doc.id217158 should be confidential. It is related to information tribal members provided us in confidence. Please put a place holder in its place. If I am not mistaken, this was requested in the submittal.

Also, the transmittal of the final PP to our stakeholders should all be linked. If it is not too late, please link the following documents to Docid:217227:
Docid: 217228, 217230, 217226, 217234, 217224, 217217, 217218, 217216, 217215, 217219, 217220, 217221, 217222, 217223

Finally, please link Docid 217255 to Docid 217256.

I believe these requests were also made in the submittal. Thanks!

Once this is performed, you should move forward with Bates stamps. Thanks again for all of the tremendous effort by you and the team. Please give me a call if you have any questions.

Good Afternoon Sharon and Shannon,

In reviewing the index I noticed that the special notice letters that were provided to you on yesterday, to include in the OU4 AR index, are related to OU2 activities. I am relieved to find out that you have not started the Bate stamps process, and it will not be difficult to remove the following documents from the index. Please remove the following Documents that are the "Special Notices" letters for OU2:

150232, 919799, 935792, 936016, 936055, 150256, and 937263

I searched the Tar Creek files in SDMS using "Special" and was able to identify the following documents that are the "Special Notice" letters for OU4. Please include the following documents in the collection:

920922, 920921, 920920, 920919, 920918

Thanks!
